

BODYFENCE
P A I N T P R O T E C T I O N F I L M

WHY USE A **PROTECTION FILM?**

New legislation requires manufacturers to use water-based paints for greater environmental compliance.

These paints are less hard on the surface and are more sensitive to scratches and impacts.

BODYFENCE paint protection film is designed to provide long-lasting protection for your vehicle bodywork.

Due to its shock-absorbing, self-healing and high sliding properties, **BODYFENCE** protective film is the ideal protection.

FOREVER YOUNG

THE ADVANTAGES OF THE **BODYFENCE FILM RANGE**

ANTI CHIPPING

Whatever the season, the roads are sometimes loaded with gravels, that can become projectiles and damage the bodywork of your vehicle.

Who has never kept his distance from the vehicle in front in order to avoid damage to his vehicle?

SELF HEALING

When a scratch damages your paintwork, the **BODYFENCE** protective film will regenerate itself with the heat of the sun or with hot water.

Scratches appear on the bodywork when using automatic car washes with rollers or brushes, when rubbing against shrubs by the roadside, when the vehicle is used regularly or in the event of vandalism.

All these scratches will disappear from the **BODYFENCE** protection film at room temperature or through a heat source (sun, simply rinsing with hot water). Your original paintwork is preserved...

Just like the first day!

SELF CLEANING

The protective films in the **BODYFENCE** range have a non-stick agent in their compound. As a result, dust and dirt will cling much less to your bodywork. Cleaning will be less frequent and much easier.

ULTRA CLEAR

The protective films in the **BODYFENCE** range are perfectly clear films: they protect the bodywork without altering its appearance. These films are available in gloss, matt or satin finish.

The matt and satin versions will allow you to protect matt paintwork or to change the appearance of your bodywork.

Before any use, please check our technical documentation available on www.bodyfence.net and/or contact the HEXIS assistance center.

BODYKIT

PROTECTING YOUR VEHICLE
HAS NEVER BEEN SO EASY!

| The package |

« **HEXIS** create the most effective solution to protect
a vehicle from external aggressions.

BODYKIT are **pre-cut kits** that fit precisely on the bodywork. »

MANAGE YOUR BUDGET

- 1 vehicle = 1 kit
- We will produce
the **BODYKIT** for you

*You only buy as much material
as you need for that specific project.*

IMPROVE YOUR CUSTOMER SATISFACTION RATINGS

- The **BODYKIT** fits perfectly
to the different shapes
of the bodywork

*The final result is guaranteed
(without flaws) and always consistent.*

BOOST YOUR PRODUCTIVITY

- The installation of the **BODYKIT**
is quick and straightforward
- No DTP, no press proof
- Increase overall productivity
and reduce installation time by 25%

You will save time on every job.

STAY CONFIDENT

- Your **BODYKIT**
is ready for installation

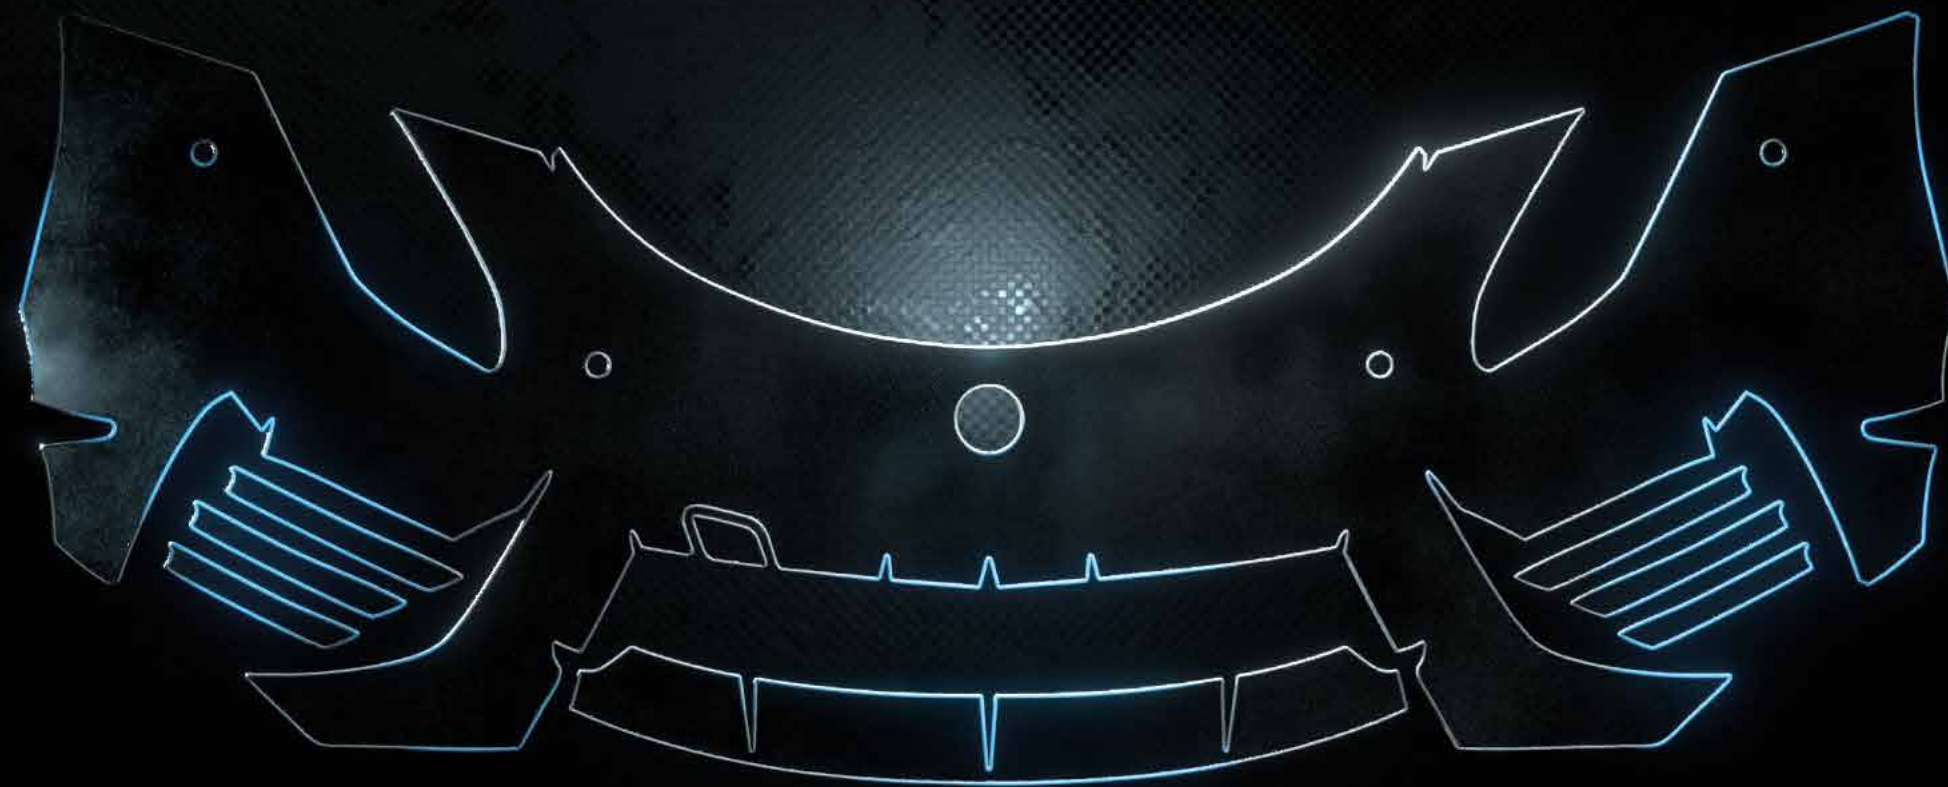

*No manual measurements,
no wasted material,
and no cutting on the bodywork.*

HOW DO I OPEN A BODYFENCE CORNER?

.01 FOLLOW THE TRAINING PROGRAMME

You must have attended at least one **BODYFENCE** training session.

.02 GET CERTIFIED

Once training is over, apply for certification online. The purpose of the certification is to validate your technical knowledge and skills.

.03 COMPLY WITH THE CRITERIA FOR OPENING

Finally, to open a **BODYFENCE CORNER**, you must:

- Comply with the graphics charter
- Apply the specifications
- Master the application techniques
